Index to Volume 11

Authors

A

Amyotte, P. R. 166
Anderson, S. E. 85, 151
Anselmo, K.J. 134

B

Barker, D.D. 205
Britton, Laurence G. 56
Bull, D. C. 33

C

Cashdollar, Kenneth L. 247
Chatrathi, Kris 116, 174, 247
Chatwin, Philip 2
Chikhliwala, Edul 2
Crowl, Daniel A. 47
Cutro, R.S. 238

D

Dahn, C. James 201
Dowell III, A. M. 85

E

Easterbrook, John 129

F

Fauske, Hans K. 121
Fraser, W.J. 238
Freeman, Raymond A. 71
Frurip, David J. 224

G

Gordon, Michael D. 102
Greninger, Nevin B. 247
Griffiths, J. F. 77
Guinnup, Dave 12

H

Hague, William 16
Hanna, Steven 2
Hansel, James G. 213
Hendershot, Dennis C. 256
Herbertsson, Gunnar 126
Huff, James E. 53, 187

K

Keiter, Alan G. 157
Klotz, Herbert C. 213
Kordylewski, W. 77

L

Lantzy, Ronald J. 41
Lemkowitz, S. M. 140
Linney, R. E. 134
Londergan, Richard 2

M

Mancini, R. A. 27
Martinsen, William E. 22
Mattheissen, R. Craig 99
Mitchell, John W. 213
Moroney, Robert N. 6
Mynaugh, J. B. 85

P

Pegg, M. J. 166
Philley, Jack O. 218
Prine, Brenda 113
Prugh, Richard W. 19

R

Rutch, Christine 134

S

Senecal, Joseph A. 182
Seymore, Thomas 164
Sharkey, J.J. 238
Shaw, K. R. 187
Sheesley, J. H. 134
Sheppard, Charles M. 229
Skloss, R. W. 151
Spicer, Thomas 2
Spivey, K.H. 205
Sweeney, Joseph C. 89

U

Ural, Erdem A. 176

W

Weiss, Eric S. 247
Whitney, M.G. 205
Wildman, G.T. 238

Wildman, G.T. 238

Titles

A

Acceptable Risk - An Overview.....218
Analysis of Titanium/Carbon Steel Heat Exchanger Fire.....113

B

Blast LoadedStructures Common to Chemical Plants, Ultimate Capacity of 205

C

Chemical Accident Prevention Under the Clean Air Act Ammendments.....99

D

DeflagrationProtectionof ..... Pipes,..... 116
Disengagement Predictions via Drift Flux Correlation Vertical, Horizontal and Spherical Vessels 229
Dispersion in Non-Flat Obstructed Terrain and Advanced Modeling Techniques,.....6
Dust Entrainability and Its Effect of Explosion Propagation in ElongatedStructures,.....176
Dust Explosion Prevention by Addition of Thermal Inhibitors 166
Dust Explosion Research, Laboratory and Large-scale Dust Explosion Research.....247

E

Electrostatic Hazards of Pneumatic Conveying of Powders, .201
Emergency Pressure Relief Discharge Control by Passive Quenching - Update,.....157

F

Flammability of Multiple Fuel and Multiple Inert Mixtures, Predicting and Controlling 213
Flashback from Waste Gas Incinerator Into Air Supply Piping, ...85
Flow Resistance of Rupture Disk Devices, Measurement of,.....187

G

Getting the Most from Accident Investigations, More Bang for the Buck:, ...151
Guidelines for Hazard Evaluation Procedures: Second Edition,..... 50

H

Halon Replacement: The Law and the Options,.....182
Hazard Evaluation Studies, Documentation and Utilization of the Results of 256
Hazard Evaluation, Using the ASTM CHETAH Program in Chemical Process.....224

I

Integrating Health, Safety, Environment and Social Aspects into Undergraduate Chemical Engineering Education, A UniqueProgram for, ...140

L

Large-Scale Explosion Experiments, Review of, .33

M

Measuring Process Safety Management,.....89
MIACC (Major Industrial Accidents Council of Canada): A Canadian Consensus Group of Stakeholders Working on Safety Issues Prior to Legislation,.....129
Mitigation of Hazardous Emergency Release Source Terms via Quench Tanks,.....121
Mitigation Systems, ...16
Model Evaluation Panel, Results from the, ...2

N

Non-buoyant Puff and Plume Dispersion Modeling Issues,.....12

O

On-Line Modeling of Thermally Hazardous Batch Processes, ...102
OSHA's Interest in Chemical Plant Safety,.....164

P

Pre-Release Mitigation, ...19
Process Safety Testing Program for Reducing Risks Associated with Large Scale Chemical Manufacturing Operations.....238

R

Recent Computer Modeling Advances for Process Hazard Analysis, ...106
Relief System Design Scope of CCPS Effluent Handline Guidelines, ...53

S

Some Improvements in Design of Atmospheric Ammonia Storage Tanks of the Double Integrity Type,.....126
Spontaneous Ignition Hazards Resulting From the "Hot Stacking" of Process Materials, The Prediction of, ...77
Spreadsheets in Modeling Accidental Release of Toxic Chemicals, The Use of, ...71

T

Tornado Risk Analysis,.....134

U

Unconfined Vapor Cloud Explosions, Workshop on,.....27
Using Material Data in Static Hazard Assessment,.....56
Using Thermodynamic Availability to Determine the Energy of Explosion for Compressed Gases,.....47

V

Vapor Cloud Source Modeling Workshop Chairman's Report,.....41
Vapor Suppression Techniques, Notes on a Few,.....22
Vent Area Estimation Methods for Non-Nomograph Gases, Analysis of, ...174

Subjects

A

acceptable risk, an overview.....218
accident
  investigation.....151
  prevention, chemical.....99
ASTM CHETAH program.....224
advanced modeling techniques.....6
air supply piping, flashback into.....85
ammonia storage tanks.....126

B

batch processes, hazardous.....102
blast loaded structures.....205
chemical
  accident prevention.....99
  manufacturing operations.....238

C

clean air act ammendments.....99
computer modeling advances.....106

D

deflagration protection of pipes.....116
design of storage tanks.....126
drift flux correlation, predictions via.229
dust
  entrainability.....176
  explosion 166,247

E

effluent handling guidelines.....53
electrostatic hazards.....201
emergency pressure relief.....157
environmental aspects, integrating....140
explosions
  dust explosion prevention.....166
  energy for compressed gases.....47
  unconfined vapor cloud.....41

F

flammability, predicting..... 213
flashback from gas incinerator.....85
flow resistance.....187
fuel, controlling flammability of.....213

G

gases, non-nomograph.....174

H

halon replacement.....182
hazard
  analysis..... 106
  assessment, static.....56
  electrostatic.....201
  evaluation 50, 224, 256
hazardous
  batch processes.....102
  emergency release, mitigation of..121
health aspects, integrating.....140
heat exchanger fire.....113
hot stacking of process materials.....77

I

incinerator, waste gas.....85
inert mixtures, flammability of.....213

M

MIACC (Major Industrial Accidents Council of Canada).....129
mitigation systems.....16
model evaluation panel., results of.....1

N

non-flat obstructed terrain.....6

O

OSHA, interest in plant safety.....164

P

passive quenching.....157
pipes, deflagration protection of.....116
pressure relief, emergency.....157
process
  hazard analysis.....106
  materials, hot stacking of.....77
  safety management.....89
  safety testing program.....238
pre-release mitigation.....19
puff and plume dispersion modeling...12
quench tanks, source terms via.....121
pheumatic conveying.....201
relief system design.....53

R

risk analysis, tornado.....134
risks, educing.....238
rupture disk devices.....187

S

safety
  aspects,program for integrating....140
  issues prior to legislation.....129
spontaneous ignition hazards.....77
spreadsheets, the use of.....71
statid hazard assessment.....56

T

tanks
  ammonia storage.....126
  quench, source terms via.....121
thermal inhibitors.....166
titanium/carbon steel
  heat exchanger fire.....113
thermally hazardous batch processes.102
tornado risk analysis.....134
toxic chemicals
  accidental release of.....71

V

vapor
  cloud explosions, unconfined.....41
  suppression techniques.....22
vent area estimation methods.....174
waste gas incinerator.....85
